Mission Knowledge Modernization™ | Institutional Training Continuity Governance™

THE RECOMMENDED FIRST STEP

Mission Continuity Risk Sprint

A 30-day, bounded diagnostic for one organization, program, or operational unit experiencing a defined change such as a system migration, SME rotation, requirement update, leadership transition, contract transition, or training modernization effort. Buyers with a defined requirement may engage directly through the relevant delivery lane.

BUYER
OUTCOME

We know where continuity is most likely to break during this change, what the operational consequences are, and what to address first.

01	02	03	04
Continuity Risk Register Up to 15 prioritized, evidence-supported findings.	Condition Profile Domain-level conditions; TA-DA™ and TCS™ when training is in scope.	90-Day Roadmap Sequenced actions, priorities, ownership, and implementation paths.	Executive Out-Brief Consequential risks, required decisions, and immediate next actions.

WHAT THE ROADMAP DIRECTS

Operational Documentation	Training Systems	Quality & Compliance
SOP audit and development Institutional knowledge capture Documentation governance Workflow and handoff mapping	TR 350-70-aligned courseware Learning Step/Activity design Acceptance-ready deliverables Migration-safe packaging	Section 508 review QA and acceptance review Deliverable governance Review-gate management

The Four Seats Perspective™

Founder and CEO Bonita Scott has occupied every seat in the federal training ecosystem: Student, Instructor, Contractor, and now CEO. That perspective connects the learner's performance requirement to the instructor's responsibility, the contractor's deliverable, and the leader's mission decision.

PRINCIPAL-DELIVERED	FEDERAL TRAINING DEPTH	MISSION-GROUNDED
An expert-concentration model with direct accountability for analysis, quality, and delivery.	TR 350-70, TDC, QA, Blackboard LMS, instructional systems design, and Section 508 experience.	Ten years at MEDCoE across instructor and federal-contractor roles, supporting 2,300+ TDC lesson hours.

CORE CAPABILITIES

Documentation & Knowledge Management Services	Training & Workforce Readiness	Program Management Support
Controlled SOPs, process maps, knowledge registers, governance rules, authority and currency reviews, and review calendars.	Courseware development, right-sized microlearning, scenario and branching design, training architecture assessment, migration support, and performance-aligned products.	Quality and compliance review, acceptance matrices, corrective-action registers, workflow visibility, and deliverable governance.
